Driven Data Scientist ready to thrive in demanding digital intelligence processing environments. Well-informed on latest machine learning advancements. Ready to combine tireless hunger for new skills with desire to exploit cutting-edge data science technology.

Work History

2020-02 -2020-07

Data Science Intern

Group Data Analytics, Aditya Birla Management, Bangalore, Karnataka

- Worked on coming up with analytical solutions for SSOE Trading team for Crude Oil Forecasting.
- Assess the effectiveness and accuracy of new data sources and data gathering techniques.
- Developed various univariate Time Series forecasting Models and multivariate models with parameter tuning.
- Achieved forecasting accuracy of 97% with a directional accuracy of 57% for baseline model.
- Developed Twitter Based Model using 20,000 tweets with LSTM and GRU.

Education

2016-07 -2020-07

Bachelor of Technology

Vellore Institute Of Technology - Vellore

- Graduated with 8.13 CGPA
- Coursework in Electronics And Communication

2014-05 -2016-05

High School, All India Senior School Examination

Apeejay School - Noida

- Graduated with 92.4%
- Coursework in Physics, Chemistry, Maths and Computer Science

Certifications

Projects

Neural Networks and Deep Learning

Machine Learning A-Z

Python 3: Complete Bootcamp

Time Series Analysis for Python

IBM Data Science

Automatic Caption Generator

 Deployed a web application on Heroku that automatically generates the best captions for an uploaded photo.

Anomaly Detection

 Detecting Anomalies in the S&P 500 Time Series index using LSTM Autoencoders with Keras in TensorFlow 2.

Industrial Production Forecasting

 Forecasting the Monthly Production of Ice cream and frozen dessert using various time series methods like Holt-Winters, ARIMA and SARIMA with Hyperparameter optimization.

Twitter Analytics with Python

 Scraping Twitter Data with Python-Twitter API and visualizing trends using WordClouds and TopicModelling.

Music Recommendation System

 Personalized Playlist using Collaborative Filtering along with Tree Maps visualizations.
